

Administration of Medicines - French Trip

If a child requires medication for a specific medical condition or illness parents needs to complete the parental consent form. This form together with the medication should be handed into the school office in a zip lock bag (with your child's name clearly written on the bag) at the very latest **BY FRIDAY 23RD FEBRUARY 2024**. **If you are unable to provide the medicine because it is required at home prior to the trip, please send the completed consent form into school in the zip lock bag, so that any medicines can be added to our administration records and then the medicine may be placed in the bag prior to departure.** Please note that we cannot administer aspirin or medicines containing ibuprofen unless they are prescribed by a doctor. All medicines must be in their original containers/boxes. Parents must ensure that any instructions for administration on the parental agreement form (for example dose and/or time between doses) match those detailed on the medication provided. Failure to ensure this may affect our ability to administer the medication.

Please do not send paracetamol in for "just in case" headaches etc. The school will take liquid paracetamol (and strepsils for sore throats) for students for this purpose.

If your child currently has medication held at school and you would like this to be taken on the trip, please inform Mrs Bartlett in the school office **BY FRIDAY 23RD FEBRUARY** that this medication needs to be taken.

If your child suffers with asthma and they have a blue/reliever inhaler they may carry this on them and a consent form is not required for this. If they take a brown/steroid based inhaler a parental consent form should be completed and the inhaler handed in as above.

If parents have any questions about medicines etc they should speak to Mrs Bartlett in the school office.
